Reasoning Ability

Directions (Q. 1-5) In the following questions, find out the correct pair of words which will make an appropriate analogical relationship between the two words to the left of the sign of double colon and the same relationship between the two words to the right of the sign of double colon (:

...

- 1. A: Ship::Platform:B
 - a) A. Caption, B. Coolie
 - b) A. Port, B. Station
 - c) A. Quay, B. Train
 - d) A. Shore, B. Bench
 - e) None of these
- A: Roots: : House: B
 - a) A. Branches, B. Walls
 - b) A. Trunk, B. Floor
 - c) A. Flower, B. Walls
 - d) A. Tree, B. Foundation
 - e) None of these
- 3. A: Square:: Arc: B
 - a) A. Line, B. Circle
 - b) A. perimeter, B. Circumference
 - c) A. Line, B. Diameter
 - d) A. Rectangle, B. Chord
 - e) None of these
- 4. A : Flower : : Milky way : B
 - a) A. Plant, B. Sky
 - b) A. Fruit, B. Planet
 - c) A. Plant, B. Galaxy
 - d) A. Garden, B. Star
 - e) None of these
- 5. A: Water: : Thermometer: B
 - a) A. Humidity, B. Fever
 - b) A. Pitcher, B. Mercury
 - c) A. Rain, B. Doctor
 - d) A. Evaporation, B. Temperature
 - e) None of these

Directions (Q. 6-10) In the following questions, three or four alternatives are some in a certain way out of four or five and so form a group. Find the odd word that does not belong to the group.

- 6. a) Cello
- b) Guitar
- c) Flute

c) Bright

- d) Violin

 7. a) Sweetness
 d) Beautiful
- b) Elegante) None of these

e) None of these

- 8. a) Mile
- b) Centimetre
- c) Litre

- d) Yard
- e) None of these
- e) None of the
- 9. a) Eyes
- b) Ears
- c) Throat

	d) Skin	e) None of these	
10.	a) 14th November	b) 15th August	c) 26th January
	d) 2 rd October	e) None of these	(-)

13.	Seema's younger broth than Seema. Who is the a) Seema d) Deepti		n Seeta. Sweta is younger than Deepti but elder
14.	Rashmi is 14 th from the a) 25 th d) Can't be determined	b) 27 th	40 girls. What is her position from the left end? c) 21st hese
15.	January. If Mehar rem	embers that Sanjay's	certainly after January 12 but not later than 16 th birthday is before 17 th of January but not before was Sanjay's birthday? c) 16 th hese
16.	If '+' means '+', '+' m	eans '-', '-' means '	and 'x' means '+', then $12 + 6 + 3 - 2 \times 8 = ?$
	a) -2	b) 4	c) 2

Directions (Q. 17-21) In these questions, relationship between different elements is shown in the statements. These statements are followed by two conclusions.

e) None of these

Give answer:

d) 8

- (a) If only conclusion I follows
- (b) If only conclusion II follows
- (c) If either conclusion I or II follows
- (d) If neither conclusion I nor II follows
- (e) If both conclusions I and II follow

Statements: L > M, M > N, N > P
 Conclusions: L L > P
 II. M > P

18. Statements: A > B, B = H, H > G Conclusions: I. A > G II. A > H

19. Statements: H < J, F < H, $1 \le J = K$ Conclusions: I. H > I $II. 1 \ge F$

20. Statements: A < B < C ≤ D = E

Conclusions: I. B ≤ E II. B < E

21. Statements: P > M > Q, Q > Z > N Conclusions: I. M ≥ Z II. N < P

Directions (Q. 22-27) In the following questions, the symbols ℂ, %, \$ and @ are used with the following meaning as illustrated below.

P O O means P is either smaller than or equal to O.

P % O means P is smaller than O.

P @ Q means P is equal to Q.

P * Q means P is either greater than or equal to Q.

P \$ Q means P is greater than Q.

Now in each of the following questions, assuming the given statements to be true, find which of the two conclusions I and II given below them is/are definitely true?

Give answer:

- (a) If only conclusion I is true
- (b) If only conclusion II is true
- (c) If either conclusion I or II is true
- (d) If neither conclusion I nor II is true
- (e) If both conclusion I and II are true

 The candidate should be a graduate from a recognized university. B. He or she should be 23 to 26 years of age as on 07th March, 2006.

- C. The candidate should have the ability to read, write and speak English and Hindi besides the foreign language to which he/she has applied.
- D. The candidate should have his/her own accommodation, either rental or own, in Delhi.

However, if a candidate fulfills all criteria except.

- At D but he/she has accommodation either rental or own, in NCT Delhi, his/her case is to be referred to foreign secretary.
- (ii) At B but he/she has a PG degree in any discipline, his/her case is to be referred to personal assistant, foreign secretary.

Now, based on the above criteria and the information given below, you have to take decision in regard to each case. You are not to assume any information which is not available.

Give answer:

- (a) If to be referred to foreign secretary
- (b) If to be referred to PA foreign secretary
- (c) If data is inadequate
- (d) If to be selected
- (e) If not to be selected
- 39. Sweta Singh is a Hindi Hons. Graduate from Hindu College, Delhi. Recently, she has celebrated her 23rd birthday on 09th January, 2006. She possesses her own house in Vikaspuri, Delhi. She can speak, write and read English, Hindi and French equally well.
- 40. Miss Anu knows how to speak, write and read Hindi, English and Portuguese. She also knows how to handle computers. She has done GNIIT after doing her graduation from a recognized university. She can arrange a house in Delhi for her accommodation.
- 41. Pinki has done her graduation from Oxford University. Her date of birth is 09th November, 1979. She knows how to speak, write and read Hindi, English and Spanish. Her grandfather owns a house in Ghaziabad, in NCT, Delhi. She can live with her grandfather during her job in Delhi.
- 42. Kiran, wife of Ajay and a graduate from a recognized university, lives with her husband at Kamla Nagar in North. Delhi in their rental house. She has passed her post-graduation in History in February, 2003 at the age of 23 years. She can speak, read and write Maithili, Hindi, English and Nepali. Three languages Nepali, Maithili and Bhojpuri are being spoken in Nepal.
- 43. Reena has done the graduation from Jabalpur University, Madhya Pradesh. She can arrange her accommodation with her brother-in-law in Delhi. Her date of birth is 12th January, 1983. She can speak more than two languages including a foreign language.

Directions (Q. 44-50) In each of the questions below is given a statement followed by three courses of action numbered I, II and III. A course of action is a step or administrative decision to be taken for improvement, follow-up or further action in regard to the problem, policy, etc. On the basis of information given in the statement, you have to assume everything in the statement to be true and then decide which of the three given suggested courses of action logically follows worth pursuing. Then, decide which of the alternatives (a), (b), (c), (d) or (e) is correct.

44. Statement: The army has been alerted in the District following floods triggered by incessant rains.

Courses of action

- Relief to flood affected people should be arranged.
- Supply of flood articles should be arranged.
- III. Adequate medical facilities should be arranged.
- a) Only I follows
- b) Only II follows
- c) Both I and III follow
- d) All follow

By Ramandeep Singh

- e) None of these
- 45. Statement: Faced with a serious resource crunch and a depressing overall economic scenario, the state 'X' is unlikely to achieve the targeted percent compound annual growth rate during the 10th plan.

Courses of action

- The target growth should be reduced for the next plan.
- The reasons for the failures should be studied.
- III. The state 'X's performance should be compared with that of other states.
- a) Only I follows
- b) Both I and III follow
- c) Both II and III follow
- d) None follows
- e) None of these
- Statement: Over 27000 bonded labourers identified and freed are still awaiting rehabilitation.

Courses of action

- More cases of bonded labourers should be identified.
- Till the proper rehabilitation facilities are available, the bonded labourers should not be freed.
- The impediments in the way of speedy and proper rehabilitation of bonded labourers should be removed.
- a) Only I follows
- b) Only II follows
- c) Only III follows
- d) Both II and III follow
- e) None of these
- Statement: Higher disposal costs encourage those who produce waste to look for cheaper ways to get rid of it.

Courses of action

- The disposal costs should be made higher.
- The disposal costs should be brought down.
- III. A committee should be set up to study the details in this respect.
- a) Only I follows
- b) Only II follows
- c) Either I or II follos
- d) Both II and III follow
- e) None of these
- 48. Statement: If the faculty members also join the strike, there is going to be a serious problem.

Courses of action

- The faculty members should be persuaded not to go on strike.
- Those faculty members who join the strike should be suspended.
- The management should not worry about such small things.
- a) Only I follows
- b) Only II follows
- c) Both II and III follow
- d) None follows
- e) None of these
- Statement: According to the officials, paucity of funds with the organization has led to the pathetic condition of this brilliant architectural structure.

Courses of action

A new architectural structure for the building should be designed.

By Ramandeep Singh Page 6

- The reasons for the poor condition of the structure should be found out.
- Grant should be given to improve the condition of the structure.
- a) Only I follows
- b) Only II follows
- c) Only III follows
- d) Both II and III follow
- e) None of these
- 50. Statement: In the Teacher's Day function, Shri Sharma, a State Awardee and a retired Principal, had questioned the celebration of Teacher's Day in today's materialistic World.

Courses of action

- The expenditure of Teacher's Day celebration should be reduced.
- More funds should be allocated for the celebration of Teacher's Day.
- III. The role and responsibilities of teachers should be seen in today's perspective.
- a) All follow
- b) None follows
- c) Either I or II follows
- d) Only III follows
- e) None of these

English Language

Directions (Q. 51-65) Read the following passage carefully and answer the questions given below it. Certain words have been printed in bold to help you locate them while answering some of the questions.

Indeed the western recession is really the beginning of good news for India. But to understand that we will have to move away for a while from the topic of western recession To the Japanese recession! For years the Japanese style of management has been admired. However, over the last decade or so, one key question has sprung up if Japanese management style is as wonderful as described then why has Japan been in a recession for more than a decade?

The answer to this question is very simple, Culture plays a very important part in shaping up economies. What succeeds in one culture fails in another. Japanese are basically non-materialistic. And however rich they and buying endlessly. And once they have everything they need, there is a saturation point. It was only when companies like Toyota realized that they cannot keep selling cars endlessly to their home market that they went really aggressive in the western markets and the rest is history. Japanese companies grew bigger by catering to the World markets when their home markets shrunk.

And the markets have to shrink finally after attaining a level of affluence. And that's great for the World because earth needs sustainable development. It does not need monstrous consumers who keep consuming at the cost of the environment and the earth. There should be limits to growth so that consumers are not converted into material dustbins for the profit to a handful of corporations.

Owing to the materialistic culture elsewhere, it was possible to keep selling newer products to the consumers despite having existing ones which served equally well. They were lured through advertising and marketing techniques of 'dustbinisation' of the customer and then finally, once they became ready customers, they were given loans and credits to help them buy more and more. When all the creditworthy people were given loans to a logical limit, they ceased to be a part of the market. Even this would have been understandable if it could work as an eye opener. Instead of taking the 'Right Step' as Toyota did, they preferred to take a 'shortcut'. Now banks went to the non-creditworthy people and gave them loans. The people expectedly defaulted and the entire system collapsed.

Now, like Toyota western companies will learn to find new markets. They will now lean towards India because of its common man. The billion plus population in the next 25 years will

By Ramandeep Singh Page 7

become a **consuming** middle-class. Finally, the World's attention will shift to the developing World. Finally, there will be a real **surge** in income of these people and in the next fifty odd years, one can really hope to see an equal World in terms of material plenty, with poverty being almost non-existent. And this will happen not by selling more cars to Americans and Europeans. It will happen by creating markets in India, China, Latin America and Africa, by giving their people purchasing power and by marketing products for them.

The recession has made us realize that it is not because of worse management techniques but because of limits to growth. And they will realize that it is great for planet earth. After all, how many cars and houses must the rich own before calling it enough? It's time for them to look at others as well. Many years back, to increase his own profits, Henry Ford had started paying hits workers more, so that they could buy his cars. In similar fashion, now the developed World will pay the developing World people so that they can buy their cars and washing machines.

The recession will kick-start the process of making the entire World more **prosperous** and lay the foundation of limits to growth in the west and the foundation of real globalization in the World – the globalization of prosperity. And one of its first beneficiaries will be India.

- 51. What does the author mean by the "Right Step" in the passage?
 - a) Giving loans to creditworthy people only
 - b) Considering market growth along with environment protection
 - c) Restricting people to buy only such products which are needed by them
 - d) To start looking at newer avenues and markets
 - e) None of these
- 52. Although admired since years, why did the skepticism over the Japanese management style start since the last decade?
 - a) Japanese companies have been moving out of their home markets since the last decade
 - b) Japanese banks have provided loans indiscriminately to the creditworthy as well as noncreditworthy people
 - Because Japanese markets have been going through a period of continuous recession since the last decade
 - d) The unlimited growth of the Japanese markets has come at the cost of the western market
 - e) None of these
- 53. Why does the author foresee the markets being created in the developing countries instead of America and Europe?
 - a) All developing countries have materialistic culture
 - b) Developed countries are willing to make an effort to achieve globalization
 - c) American and European markets have had a large number of credit defaulters
 - d) Recession has not hit the markets of developing counties yet
 - e) None of these
- 54. According to the author, what is the main cause of Japanese recession?
 - a) Only a handful of corporation earned profits and not the people in general
 - b) Non-creditworthy people defaulted which lead to a collapse of the entire system
 - c) Consumers were sold newer products which were similar in quality to the existing ones
 - d) Japanese do not purchase endlessly and thus when products had been sold to every customer, the markets slowed down
 - e) None of these
- 55. How does the author foresee the future globalization as an analogy to Henry Ford's example?
- Car companies would start selling cars in developing countries as well.
- B. By paying the developing World the developed World would increase its own profit, in turn bringing affluence to developing World as well.
- C. To earn profit, the companies in developing countries would move to foreign land.
 - a) Only A

Directions (Q. 131-135) Study the pie-chart and line graph carefully to answer the given questions.

The pie-chart shows the percentage of train accidents in different years

The line graph shows the number of persons who died in train accidents in various states in different years

131. The number of persons who died in train accidents in 2013 is how much percent more than the number of persons who died in the train accident in 2011?

- a) 143.5%
- b) 137.5%

c) 37.5%

- d) 127.5%
- c) 147.5%

132. What is the average of the number of persons who died in train accidents in 2008 in all states together?

- a) 182
- b) 290

c) 275

- d) 284
- e) 307

By Ramandeep Singh Page 20

- In which state is the number of persons who died in the train accidents the maximum during the given period?
 - a) Odisha
- b) UP

c) Bihar

- d) Only a) and b)
- e) Maharashtra
- What is the difference between the number of train accidents in 2014 and that in 2012?
 - a) 5
- b) 6 c) 9

c) 7

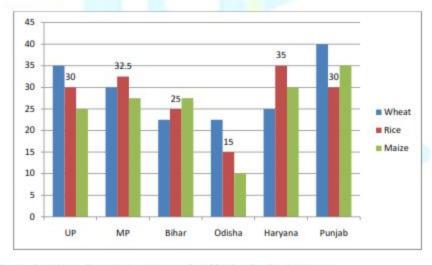

- d) 8
- What is the ratio of the number of persons who died in train accidents in 2010 to that in 2014?
 - a) 8:7
- b) 10:9

c) 12:11

- d) 14:13
- e) 16:15

Directions (Q. 136-140) Study the given bar graph and pie chart to answer the following questions.

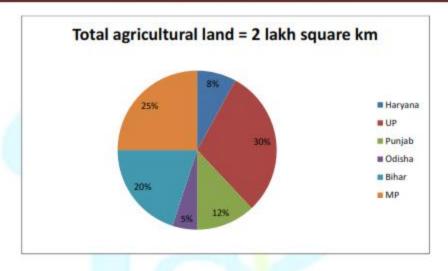

The bar graph shows the production (in thousand tones) of Wheat, Rice and Maize in different states.

information provided here is for Reference. It may vary Original

The pie-chart shows the percentage of agricultural land in the given six states.

Total production Productivity = Area of agricultural land

- 136. The productivity of which state is the maximum?
 - a) Bihar
- b) Haryana

c) Punjab

- d) UP
- c) MP
- 137. The production of which state is the maximum?
 - a) Bihar
- b) MP

c) Haryana

- d) UP e) Punjab
- 138. The production of wheat in Punjab is what percent more than the production of Maize in Odisha?
 - a) 350%
- b) 250%

c) 300%

- d) 200%
- e) 400%
- 139. What is the ratio of the production of Rice in Bihar to the production of Wheat in Haryana?
 - a) 2:3
- b) 3:2

c) 2:1

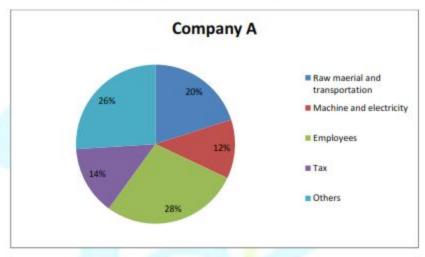

- d) 1:1
- e) 1:2
- 140. If MP exports 40% of Rice at the rate of Rs.30 per kg and UP exports 30% of Rice at the rate of Rs.32 per kg, then what is the ratio of the incomes from the exports?
 - a) 65:48 d) 57:62
- b) 31:42 e) 1:2

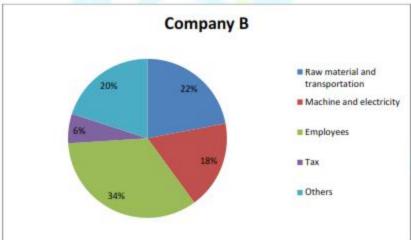

c) 43:54

Directions (Q. 141-145) Study the following pie charts to answer the following questions.

The pie charts show the expenditure of two companies A and B, which are Rs.50 Lakh and Rs.60 Lakh respectively.

By Ramandeep Singh Page 22

- 141. If the incomes of the Company A and B are in the ratio of 4:5 and the income of Company B is 180% of its expenditure, then what is the difference between the income of Company B and the income of Company A?
 - a) Rs.2200000
- b) Rs.1900000
- c) Rs.2160000

- d) Rs.1850000
- e) Rs.2250000
- 142. If the number of employees in Company A is a hundred then what is the average salary of the employees in Company A?

information provided here is for Reference. It may vary Original

- a) Rs.14,000
- b) Rs.16,000
- c) Rs.13,000

- d) Rs.15,000
- e) Rs.15,500
- 143. What is the ratio of tax paid by Company A to that by Company B?
 - a) 35:18
- b) 34:37
- c) 42:41

- d) 31:27
- e) 27:25

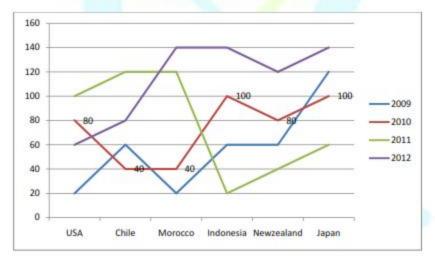

- 144. What is the difference between the expenditure on employees of Company B and that of Company A?
 - a) Rs.4300000
- b) Rs.640000
- c) Rs.5900000

- d) Rs.8700000
- e) Rs.7800000
- 145. The expenditure on Machine and Electricity of Company B is what percent more than that on the same item of Company A?
 - a) 67%
- b) 84%
- c) 75%

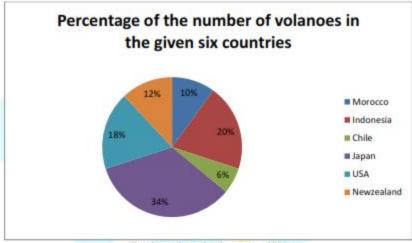

- d) 77%
- c) 80%

Directions (Q. 146-150) Study the following graph and pie chart carefully to answer the given questions.

Number of volcano eruptions in various countries in different years

By Ramandeep Singh Page 24

Total number of volcanoes = 1000

- 146. What is the ratio of the number of volcanic eruptions in the year 2009 to that in 2011?
 - a) 31:47
- b) 23:31
- c) 17:23

- d) 47:43
- e) 43:39
- 147. The total number of volcanic eruptions in Japan during the given four years is what percent of the total number of volcanoes in Japan?
 - a) 139.5%
- b) 137.78%
- c) 132.91%

- d) 123.52%
- c) 104.2%
- 148. What is the difference between the number of volcanoes in Indonesia and the number of volcanoes in Morocco?
 - a) 120
- b) 100
- c) 150

- d) 80
- e) 170
- 149. The total number of volcanic eruptions in Chile is what percent of the total number of volcanic eruptions in USA during the given four years?
 - a) 109.5%
- b) 95.51%
- c) 80.42%

- d) 115.38%
- e) 125.78%
- 150. What is the ratio of the total volcanoes in Newzealand during the given four years?
 - a) 5:3
- b) 7:5
- c) 2:5

- d) 3:4
- e) 4:7

General Awareness, Marketing and Computer Knowledge

- Which Cricketer known as the nickname of 'Pup'
 - a) Michael Clarke
 - b) Shane Warne
 - c) Sachin Tendulkar
 - d) Matt Prior
 - e) None of these

- Who was the founder of Banaras Hindu University
 - a) PanditMadan Mohan Malviya
 - b) Ram KrishanLohiya

 - a) Salaried person
 - b) Pensioners
 - c) Foreign nationals
 - d) NRI Customers
 - e) None of these
- Value added services means
 - a) Costlier products
 - b) Large number of products
 - c) Additional Services
 - d) At par services

- e) None of these
- The performance of a sales person depends on
 - a) Salary paid
 - b) Sales incentive paid
 - c) Sizes of the sales team
 - d) Ability and willingness of the sales person
 - e) None of these
- 169. Which of the following is not involved in the Growth Strategies of a company?
 - a) Horizontal integration
 - b) Vertical integration
 - c) Diversification
 - d) Intensification
 - e) None of these
- Online marketing is the function of which of the following
 - a) Purchase section
 - b) Production department
 - c) IT department
 - d) A collective function of all staff
 - e) None of these
- Bancassurance can be sold to
 - a) All banks
 - b) All insurance companies
 - c) Insurance agents
 - d) All existing and prospective bank customers
 - e) None of these
- Cross selling is not effective for which of the following products
 - a) Debit Cards
 - b) Savings Accounts
 - c) Internet Banking
 - d) Pension Loans
 - e) None of these
- 173. Data mining means analyzing the data stored with
 - a) The DSA
 - b) The front office staff
 - c) The back office staff
 - d) The customers
 - e) None of these
- 174. Which of the following is the first step in the 'transaction processing cycle', which captures business data through various modes such as optical scanning or at an electronic commerce website?
 - a) Document and report generation
 - b) Database maintenance
 - c) Transaction processing
 - d) Data entry
 - e) None of these
- Home loans can be best canvassed among
 - a) Builders

- b) Flat owners
- c) Land developers
- d) Individual wanting to buy a flat or house
- e) None of these

Customer Relationship Management (CRM) is

- a) A pre-sales activity
- b) A tool for lead generation
- c) An ongoing daily activity
- d) All of the above
- e) None of these

Customization is useful for

- a) Designing customer specific product
- b) Call centres
- c) Publicity
- d) Motivating the staff
- e) None of these

178. Market driven strategy includes

- a) Identifying problems
- b) Planning marketing tactics of peers
- c) Positioning the organization and its brands in the market place
- d) Internal marketing
- e) None of these

Innovation in marketing is same as

- a) Motivation
- b) Perspiration
- c) Aspiration
- d) Creativity
- e) None of these

Generation of sales lead can be improved by

- a) Being very talkative
- b) Increasing personnel and professional contact
- c) Being passive
- d) Engaging recovery agent
- e) None of these

A market plan is

- a) Performance appraisal of the marketing staff
- b) Company prospectus
- c) Documented marketing strategy
- d) Business targets
- e) None of these

The key challenge to market driven strategy is

- a) Selling maximum products
- b) Employing maximum DSAs
- c) Delivering superior value to customers
- d) Being rigid to changes
- e) None of these

A successful "Blue Ocean" requires

By Ramandeep Singh

- a) Effective communication
- b) Innovative skills
- c) Motivation
- d) All of the above
- e) None of these
- Compilers and interpreters are themselves
 - a) High level language
 - b) Codes
 - c) Programs
 - d) Mnemonics
 - e) None of these
- A storage system for small amounts of data is
 - a) Magnetic card
 - b) Magnetic tape
 - c) Punched card
 - d) Optical mark reader
 - e) None of these
- A modern digital computer has
 - a) Extremely high speed
 - b) Large memory
 - c) Almost unlimited array
 - d) All of the above
 - e) None of these
- The personnel who deals with the computer and its management put together are called
 - a) Software
 - b) Humanware
 - c) Firmware
 - d) Hardware
 - e) None of these
- 188. The device that can both feed data into and accept data from a computer is
 - a) ALU
 - b) CPU
 - c) Input-Output device
 - d) All of the above
 - e) None of these
- Which of the following is intended to be used in all applications runs on mainframe computers
 - a) LOGO
 - b) APL
 - c) PL/1
 - d) OCCAM
 - e) None of these
- The complete picture of data stored in database is known as
 - a) Record
 - b) Schema
 - c) System flowchart
 - d) DBMS

e) N	None of these
191.	The first generation of computers available was based on the bit micro processors
a) 4	
b)8	
c) 1	6
d) 6	4
e) N	None of these
192.	Any device that performs signal conversion is
a) N	Aodulator
b) N	Modem
c) F	Ceyboard
	Plotter
e) N	None of these
193.	Data division is 3rd division of aprogram
a) (COBOL
b) I	BASIC
c) F	PASCAL
	FORTH
e) N	None of these
194.	Most important advantage of an IC is its
	Easy replacement in case of circuit failure
	Extremely high reliability
	Reduced cost
	ow power consumption
e) N	None of these
195.	Most important advantage of an IC is its
	Easy replacement in case of circuit failure
	Extremely high reliability
	Reduced cost
	ow power consumption
e) N	None of these
196.	The list of coded instructions is called
	Computer program
	Algorithm
2.78	lowchart
1000	Jtility programs
e) P	None of these
197.	Which output device is used for translating information from a computer into
pict	orial form on paper
	Mouse
	Plotter
	ouch panel
	Card punch
e) N	Vone of these
198.	Any storage device added to a computer beyond the immediately usable main storage
	nown as
a) F	Floppy disk

By Ramandeep Singh Page 31

- b) Hard disk
- c) Backing store
- d) Punched card
- e) None of these

Which device of computer operation dispenses with the use of the keyboard

- a) Joystick
- b) Light pen
- c) Mouse
- d) Touch
- e) None of these

ASCII stands for

- a) American Standards Code for Information Interchange
- b) All purpose Scientific Code for Information Interchange
- c) American Security Code for Information Interchange
- d) American Scientific Code for Information Interchange
- e) None of these

Answers:

1. Option C

First is the place where second stops temporarily.

2. Option D

Second is the lowest part of the first.

3. Option A

First is a part of the second.

4. Option D

Second is a part of first.

5. Option B

First contains the second.

Option C

All are music instruments except flute. All have string to play the music but flute does not have.

7. Option A

All except sweetness are related with beauty but sweetness is related with taste.

8. Option C

All others are units to measure distance.

9. Option C

Except 'Throat' all words having four letters.

10. Option A

All others are national holidays.

11. Option B

M A D R A S

By Ramandeep Singh

	D	A	M	S	A	R					
	M	U	M	В	A	1					
	M	U	M	1	A	В					
	MUN	MBAI =	MUMIA	AB							
12	2. Optio	on D									
	1	N	S	T	I	T	U	T	I	0	N
	9	14	19	20	9	20	21	20	9	15	1-
	N	0	1	T	U	Т	1	T	S	N	1
	14	15	9	20	21	20	9	20	19	14	9
	P	E	R	F	E	C	Т	1	O	N	
	16	5	18	6	5	3	20	9	15	14	
	N	O	I	T	C	E	F	R	E	P	
	14	15	9	20	3	5	6	18	5	16	

13. Option D

Deepti>Sweta>Seema>Sohan>Seeta Deepti is the eldest

14. Option B

Required position = (40 + 1 - 14) = 27th

15. Option D

Days by Ayush 13, 14, 15 in January

Days by Mehar 14, 15, 16 in January

Clearly, 14th and 15th January are common in both the groups.

16. Option B

?=
$$12 + 6 \div 3 - 2 \times 8$$

= $12 \div 6 - 3 \times 2 + 8$ (using BODMAS rule)
= $2 - 3 \times 2 + 8 = 2 - 6 + 8$
= $(2 + 8) - 6 = 4$

17. Option E

L > M (i)

M > N (ii)

N > P (iii)

On combining all the three statements, we get

L>M>N>P

Conclusions: I. L > P (True)

II. M > P (True)

18. Option E

A > B (i)

B = H (ii)

H>G (iii)

On combining the statements (i), (ii) and (iii), we get

A > B = H > G

Conclusions: I. A > G (True)

II. A > H (True)

nformation provided here is for Reference. It may vary Original

```
19. Option D
    H < J
                      .... (i)
    F<H
                      .... (ii)
    I \le J - K
                      .... (iii)
    On combining the statements (i), (ii) and (iii), we get
    F < H < J = K \ge I
    Conclusions: I. H > I (False)
                                II. 1≥F (False)
20. Option E
    A < B < C \le D - E
    Conclusions: L B < E (False)
                                II. B < E (True)
21. Option B
    P > M > Q
                                .... (i)
    0>Z>N
                                .... (ii)
    On combining the statements (i) and (ii) we get
    P>M>O>Z>N
    Conclusions: I. M ≥ Z (False)
                                II. N < P (True)
22. Option D
    M \% T \rightarrow M \le T
                                         .... (i)
    T S K \rightarrow T > K
                                .... (ii)
    K \odot D \rightarrow K \leq D
                                         .... (iii)
    On combining the statements (i), (ii) and (iii), we get
    M < T > K \le D
    Conclusions: L T SD \rightarrow T > D (False)
                                II. D \ M \rightarrow D > M (False)
23. Option A
    F @ B \rightarrow F = B
                                .... (1)
    B \% N \rightarrow B \le N
                                        .... (ii)
    N S H \rightarrow N > H
                                .... (iii)
    On combining the statements (i), (ii) and (iii), we get
    F = B < N > H
    Conclusions: I. N \$ F \rightarrow N > F (True)
                                II. H \S F \rightarrow H > F (False)
24. Option C
    R * M \rightarrow R \ge M
                                         .... (i)
    M @ K \rightarrow M = K
                                         .... (ii)
    K \bigcirc J \rightarrow K \leq J
                                .... (iii)
    On combining the statements (i), (ii) and (iii), we get
    R \ge M - K \le J
    Conclusions:
                      I. J SM \rightarrow J > M (May be true)
                                II. J @ M → J − M (May be true)
25. Option E
    B S N \rightarrow B > N
                                .... (i)
                                .... (ii)
    N*R \rightarrow N \geq R
    R @ K \rightarrow R - K
    On combining the statements (i), (ii) and (iii), we get
    B>N\geq R-K
```

Conclusions: I. $K \otimes N \rightarrow K \leq N$ (True) II. $B \otimes K \rightarrow B \geq K$ (True)

26. Option B

 $J \circ K \rightarrow J \leq K$ (i) $K \circ N \rightarrow K \geq N$ (ii) $N \circ D \rightarrow N \geq D$ (iii)

On combining the statements (i), (ii) and (iii), we get

 $J \le K > N \ge D$

Conclusions: I. J % $N \rightarrow J \le N$ (False)

II. D % $K \rightarrow D < K$ (True)

27. Option B

 $R @ D \rightarrow R = D$ (i) $D \odot M \rightarrow D \leq M$ (ii) $M \$ T \rightarrow M \ge T$ (iii)

On combining the statements (i), (ii) and (iii), we get

 $R = D \le M > T$

Conclusions: I. T % D → T < R (False)

II. $M * R \rightarrow M \ge R$ (True)

28. Option C

- 29. Option D
- 30. Option D

Angle traced by hour hand in 35 min. after $8 = 35 \times \frac{1}{2} = 17.5^{\circ}$ At 8: 35, min. hand is at 7, and angle between 8 and 7 = 30° Required angle between two hand at 8: 35 = 30° + 17.5° = 47.5°

31. Option C

Year 2001 was an ordinary year and in an ordinary year

1st day = last day

1st January = 31st December

As, given that, 1st January = Monday

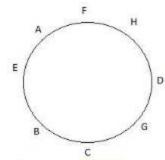

Hence, 31st December = Monday

32. Option A

The pointer which was showing West started showing South. Hence, the pointer turned 90° clockwise. Now, Sita went to the direction thinking it as West. The original direction will be +90° clockwise i.e. North direction.

33. Option D

Left Right
C A B D E
Clearly, C and E are at the extremes.

34. Option C

Clearly, H is sitting exactly between F and D

- 35. Option D
- 36. Option D
- 37. Option C
- 38. Option D

Candidates	(A)	B (ii)	(C)	D(i)
Sweta	True	True	True	True
Miss Anu	True	?	True	True
Pinki	True	False		
Kiran	True	True	True	True
Reena	True	True	?	True

- 39. Option D
- 40. Option C
- 41. Option E
- 42. Option B
- 43. Option C
- 44. Option D

All the courses of action are worth pursuing for the problem as defined in the statement, because flood affected persons need all sort of relief i.e., food, medical facilities etc.

45. Option C

Courses of action II and III are worth pursuing the problem as defined in the statement. Reasons for failure should be studied and performance of the affected state should be compared with that of other states.

46. Option C

Only course of action III provides a feasible and effective course to combat the problem, that impediments in the way of speedy and proper rehabilitation should be removed. Courses of action I and II are not effective courses.

47. Option D

Courses of action II and III are feasible and effective to combat the problem.

48. Option A

The best way to prevent faculty members to go on strike is to persuade them. Hence, course of action I shows the right course of action.

By Ramandeep Singh

49. Option C

Condition of the architectural structure can be improved by way of adequate finance. Hence, course of action III, that grant should be given to improve the condition of the structure, is the right course of action.

50. Option D

In the statement, celebration of Teacher's Day in today's materialistic World is in question which means that the role and responsibilities of teachers should be seen in today's perspective. Hence, course of action III is the right course of action.

- 51. Option D
- 52. Option C
- 53. Option E
- 54. Option D
- 55. Option B
- 56. Option E
- 57. Option C
- 58. Option A
- Option BOption C

The word catering means 'to provide the things that a particular type of person wants'. Hence the words catering and supplying are synonymous.

61. Option E

Key means 'most important: essential: critical: vital', so, the words key and important are synonymous important.

62. Option B

Aggressive means 'acting with force and determination in order to succeed'. Hence, the words aggressive and determined are synonymous.

63. Option E

Prosperous means 'rich and successful: affluent'. Of the given alternatives, the word underprivileged means 'having less money and fewer opportunities than others, disadvantaged. So, underprivileged is most opposite in meaning to it.

64. Option A

Destroying is most opposite in meaning to the word consuming as used in the passage.

65. Option A

Surge means 'a sudden increase in value'. So, the words surge and decrease are antonymous.

- 66. Option B

96. Option D

97. Option B

98. Option B

99. Option E

100. Option A

101. Option B

Average number of girls studying in all the standards together =
$$\frac{15+10+25+22.5+25+17.5}{6} \times 100$$

= $\frac{11500}{6}$ = 1916.66 = 1917

102.

Total number of boys studying in all the standards together = (12.5 + 15 + 22.5 + 20 + 22.5 + $15) \times 100 = 10750$

Number of boys studying in class VI = $15 \times 100 = 1500$ Required percentage = $\frac{1500}{10750} \times 100 = 13.95$

103.

Total number of students studying in all the standards together = 11500 + 10750 = 22250

Number of girls studying in class $V = 25 \times 100 = 2500$

Required percentage = $\frac{2500}{22250} \times 100 = 11.24 = 11$

Number of boys studying in class IV = $20 \times 100 = 2000$

Number of girls studying in class $I = 15 \times 100 = 1500$

Required ratio = 2000 : 1500 = 4 : 3

105. Option D

Total number of students studying in class III = $(22.5 + 25) \times 100 = 4750$

Total number of students studying in class IV = $(20 + 22.5) \times 100 = 4250$

Required percentage = 4750 : 4250 = 19 : 17

106. Option B

Total number of items sold by Company C in the year 2003 Required percentage = Total number of items produced by Company C in the year 2003

$$=\frac{9.6}{15}\times100=64$$

107. Option C

Item sold by Company E in all the years together = (13 + 11.1 + 12.2 + 11.4 + 7 + 5 + 4.9) × 1000 = 64600

Items produced by Company E in all the years together = 15.8 + 14 + 14.2 + 13.6 + 10.6 + 9.8 $+8.9) \times 1000 = 86900$

Required percentage =
$$\frac{64600}{86900} \times 100 = 74.34$$

108. Option E

Total number of items produced by all companies in the year 2007 = 13.4 + 16 + 17 + 11.2 + 9.8 = 67.4

Total number of items sold by all companies in the year 2007 = 10 + 13 + 13.2 + 8.2 + 5 =

Required ratio = 67.4:49.4 = 337:247

109. Option B

Percentage of items sold by Company A in the year $2005 = \frac{7.5}{9} \times 100 = 83.33$ Percentage of items sold by Company B in the year $2005 = \frac{9}{24} \times 100 = 64.29$ Percentage of items sold by Company c in the year $2005 = \frac{9}{10.4} \times 100 = 67.31$

Percentage of items sold by Company D in the year $\frac{8}{10.7} \times 100 = 74.77$

Percentage of items sold by Company E in the year = $\frac{11.4}{13.6} \times 100 = 83.82$

So, Company B has sold the minimum percentage of items in the year 2005

Option A

Total number of items sold by Company B for all the years together = (6.1 + 9.7 + 10.4 + 9 + $12.1 + 13 + 14) \times 1000 = 74300$

111. Option E

Number of injuries due to cycle accidents = $48000 \times \frac{10}{100} \times \frac{9}{16}$ $=300 \times 9 = 2700$

Option D 112.

Deaths due to Car accidents = $48000 \times \frac{15}{100} \times \frac{3}{8} = 2700$

Total number of accidents due to Cars = $48000 \times \frac{15}{100} = 7200$

Required percentage =
$$\frac{2700}{7200} \times 100 = 37.5$$

113. Option A

Number of injuries due to bus accidents = $48000 \times \frac{21}{100} \times \frac{8}{15} = 5376$

Required percentage = $\frac{5376}{49000} \times 100 = 11.2 = 11$

114. Option C

Total number of deaths due to Autos and Motorcycles together = $48000 \times \frac{13}{100} \times \frac{4}{10} + 48000 \times \frac{1}{100} \times \frac{1}{100}$ $\frac{23}{100} \times \frac{1}{3} = 2496 + 3680 = 6176$

115.

Number of deaths due to Truck accidents = $48000 \times \frac{18}{100} \times \frac{5}{12} = 3600$

Required ratio = 3600 : 48000 = 3 : 40

116. Option D

Required percentage = $\frac{31}{19} \times 100 = 206.67 = 207$

A =
$$35000 \times \frac{10}{100} \times \frac{3}{10} = 1890$$

B = $35000 \times \frac{22}{100} \times \frac{11}{20} = 4235$
C = $35000 \times \frac{31}{100} \times \frac{3}{5} = 6510$
D = $35000 \times \frac{15}{100} \times \frac{2}{5} = 2100$
E = $35000 \times \frac{14}{100} \times \frac{1}{4} = 1225$

Total number of males in all the organizations = 1890 + 4235 + 6510 + 2100 + 1225 = 15960

118. Option B

Total number of males in organization A and C = 35000
$$\left(\frac{18}{100} \times \frac{30}{100} + \frac{31}{100} \times \frac{60}{100}\right)$$

= $\frac{35000}{10000} (540 + 1860)$
= $3.5 \times 2400 = 8400$

119. Option A

Number of females in organization B =
$$\frac{35000 \times 22 \times 9}{100 \times 20}$$
 = 3465
Number of females in organization E = $\frac{35000 \times 14 \times 3}{100 \times 4}$ = 3675
Required difference = 3675 - 3465 = 210

120. Option E

Number of females in organization D =
$$35000 \times \frac{15}{100} \times \frac{60}{100} = 3150$$

121. Option A

Percentage of the Muslim members in LokSabha =
$$\frac{42}{490} \times 100 = 8.57\% = 9\%$$

Required ratio =
$$(120 - 30)$$
: $(30 + 30)$
= 90 : 60 = 3 : 2

Number of businessman members in Parliament =
$$45 + 19 = 64$$

Percentage of businessman members in Parliament = $\frac{84}{640} \times 100 = 10\%$

Required percentage =
$$\frac{45}{(186+45)} \times 100$$

= $\frac{45}{225} \times 100 = 20\%$

126. Option B
$$\frac{2.4+3.6+1.8+4.7+5.8\times1000}{5} = 3660$$

127. Option C

128. Option E
$$\frac{0.9}{3.9} = 3:13$$

$$\frac{64}{4.2+5.1+77+3.6+4.5+3.9} \times 100 = \frac{6.4}{29} \times 100 = 22.06\% = 22\%$$

Option B

131. Option C

The number of people who died in train accidents in 2013 = 400 + 500 + 600 + 700 = 2200

The number of people who died in train accidents in 2011 = 100 + 200 + 600 + 700 = 1600

So, required % =
$$\frac{2200 \text{ } 1600 \times 100}{1600} = 37.5\%$$

132. Option C

Average number of people who died in train accidents in all states in $2008 = \frac{1}{4} \times (100 + 200 + 300 + 500)$ = $\frac{1300}{4} = 275$

133. Option B

The number of deaths in train accidents in Bihar = 100 + 300 + 300 + 200 + 500 + 600 + 400 = 2400

In UP the number of people who died in train accidents is the maximum.

Quicker method it is clear from the graph that the highest number of people died in UP.

Option D

The number of train accidents in
$$2014 = 200 \times \frac{18}{100} = 36$$

The number of train accidents in $2012 = 200 \times \frac{14}{100} = 28$
So, required difference = $36 \boxtimes 28 = 8$

135. Option E

The ratio of the number of deaths in 2010 to that in 2014 = (100 + 300 + 500 + 700) : (200 + 300 + 400 + 600) = 1600 : 1500 = 16 : 15

Productivity =
$$\frac{Total\ production}{Area\ of\ agricultural\ land}$$

Productivity of UP = $\frac{35+30+25}{2\ lakh \times \frac{340}{20}} = \frac{90000}{60000} = 1.5$ tonnes per sq km

Productivity of MP =
$$\frac{30+32.5+27.5 \times 1000}{2 \ln kh \times \frac{25}{100}} = \frac{90000}{50000} = 1.8$$
 tonne per sq km
Productivity of Bihar = $\frac{22.5+25+27.5 \times 1000}{2 \ln kh \times \frac{20}{1000}} = \frac{75000}{40000} = 1.875$ tonnes per sq km
Productivity of Odisha = $\frac{22.5+15+10 \times 1000}{2 \ln kh \times \frac{5}{1000}} = \frac{47.5 \times 1000}{10000} = 4.75$ tonnes per sq km
Productivity of Haryana = $\frac{25+35+30}{2 \ln kh \times \frac{16}{1000}} = \frac{90000}{10000} = 5.625$ tonnes per sq km
Productivity of Punjab = $\frac{40+30+35 \times 1000}{2 \ln kh \times \frac{16}{100}} = \frac{90000}{24000} = 4.375$ tonnes per km^2
So, productivity of Haryana is the maximum

Option E

Production of Punjab is maximum = 105000 tonnes

138. Option C

Production of Wheat in Punjab = 40000 tonnes
Production of Maize in Odisha = 10000 tonnes
So, required % =
$$\frac{40000 \text{ B } 10000}{10000} \times 100\% = 300\%$$

139. Option D

The ratio of production of Rice in Bihar to the production of Wheat in Haryana = 25000 tonnes: 25000 tonnes = 1:1

140. Option A

Income of MP from export of 40% of Rice at the rate of Rs.30 per kg = $32500 \times \frac{40}{100} \times 1000 \times 30 = \text{Rs}$, 39 Crore
Income of UP from export of 30% of Rice at the rate of Rs.32 per kg = $30000 \times 1000 \times \frac{30}{100} \times 32 = \text{Rs}$.28.8 Crore
So, required ratio = 39: 28.8 = 390: 288 = 65: 48

141. Option C

Expenditure of Company B = 60 lakh
Income of Company B = 60 lakh ×
$$\frac{180}{100}$$
 = 108 lakh = 1 Crore 8 lakh
Income of Company A = $10800000 \times \frac{4}{5}$ = Rs.8640000
So, required difference = $10800000 \boxtimes 8640000$ = Rs.2160000

142. Option A

Total expenditure on the employees of Company A = $5000000 \times \frac{28}{100}$ = Rs.1400000 Average salary of the employees = $\frac{1400000}{100}$ = Rs.14000

Option A

Tax paid by Company A: Tax paid by Company B
=
$$5000000 \times \frac{14}{100}$$
: $6000000 \times \frac{6}{100}$ = 700000 : 360000 = 35 : 18

144. Option B

Difference =
$$6000000 \times \frac{34}{100} \boxtimes 5000000 \times \frac{2B}{100} = 2040000 \boxtimes 1400000 = Rs.640000$$

145. Option E

Expenditure on Machine and Electricity of Company B = $6000000 \times \frac{18}{100}$ = Rs.1080000 = 10.8 lakh

Expenditure on Machine and Electricity of Company A = $5000000 \times \frac{12}{100}$ = Rs.600000 = 6

So, required % =
$$\frac{10800000 \text{ @ } 600000}{600000} \times 100\%$$

= $\frac{48}{60} \times 100\% = 80\%$

Hence, expenditure of Company B is 80% more than Company A.

146. Option C

Total number of volcanic eruptions in the year 2009 = 20 + 60 + 20 + 60 + 60 + 120 = 340

Total number of volcanic eruptions in the year 2011 = 100 + 120 + 120 + 20 + 40 + 60 = 460

So, required ratio = 340: 460 = 17: 23

147. Option D

Total number of volcanic eruptions in Japan during the given four years = 60 + 100 + 120 + 140 = 420

Total number of volcanoes in Japan = $1000 \times \frac{34}{100} = 340$ So, required % = $\frac{420 \times 100}{340} = 123.52\%$

148. Option B

Difference between the number of volcanoes in Indonesia and the number of volcanoes in Morocco = $1000 \times \frac{20}{100} \boxtimes 1000 \times \frac{10}{100} = 200 \boxtimes 100 = 100$

Option D

Total number of volcanic eruptions in Chile = 40 + 60 + 80 + 120 = 300Total number of volcanic eruptions in USA = 20 + 60 + 80 + 100 = 260So, required % = $\frac{300 \times 100}{260}$ = 115.38%

Hence, volcanic eruptions in Chile is 115.38% of the total number of volcanic eruptions in USA.

150. Option C

Total volcanoes in Newzealand = $1000 \times \frac{12}{100} = 120$ Total number of volcanic eruptions in Newzealand = 40 + 60 + 80 + 120 = 300

Option A

So, required ratio = 120: 300 = 2:5

Option A

153. Option D 154. Option C 155. Option D 156. Option B 157. Option B 158. Option B 159. Option C 160. Option C 161. Option A 162. Option A 163. Option D 164. Option D 165. Option D 166.
