Directions : In questions no. 186 to 200, you have three brief passages with 5 questions following each passage. Read the passages carefully and choose the best answer to each question out of the four alternatives and mark it by blackening the appropriate circle (ullet) in the Answer Sheet.

Passage I

(Questions No. 186 - 190)

The London Eye is a giant Ferris wheel situated on the banks of the River Thames in London, England. The entire structure is 135 metres (443 ft) tall and the wheel has a diameter of 120 metres (394 ft).

It is the tallest Ferris wheel in Europe, and the most popular paid tourist attraction in the United Kingdom, visited by over 3.5 million people annually. When erected in 1999 it was the tallest Ferris wheel in the world, until surpassed first by the 160 metres (520 ft) Star of Nanchang in 2006 and then the 165 metres (541 ft) Singapore Flyer in 2008. Supported by an A-frame on one side only, unlike the taller Nanchang and Singapore wheels, the Eye is described by its operators as "the world's tallest cantilevered observation wheel". It provides the highest public viewing point, and is the 20th tallest structure, in London.

The London Eye, or Millennium Wheel, was officially called the British Airways London Eye and then the Merlin Entertainments London Eye. Since 20 January 2011, its official name is the EDF Energy London Eye following a three-year sponsorship deal.

The London Eye adjoins the western end of Jubilee Gardens, on the South Bank of the River Thames between Westminster Bridge and Hungerford Bridge, in the London Borough of Lambeth. The site is adjacent to that of the former Dome of Discovery, which was built for the Festival of Britain in 1951.

- 186. The tallest Ferris wheel in the world is
 - (A) Star of Nanchang
 - (B) Singapore Flyer
 - (C) Dome of Discovery
 - (D) London Eye
- 187. The London Eye is situated on the banks of (A) Westminster Bridge

Passage II

(Questions No. 191 - 195)

Not all that glitters is gold. Not all that is white is milk. Not all people who wear saffron clothes are sages. These age-old sayings hold true even now, especially the last one. We see a lot of people wearing saffron clothes, but not all of them are sanyasis in the true sense of the word. A sanyasi is one who guides his followers on the right path.

AD 2016/Page 26

Recently, I attended the inaugural function of a home for destitute women in Mysore. In most cases, the women were there because they were either harassed by their in-laws or tortured by drunken husbands. Owing to their socio-economic conditions, even the parents of the victims were unable to take them in and care for their hapless children. There had also been instances when young girls, lured by romance, had run away from their homes and had been deserted by their lovers after the honeymoon. These girls usually did not dare return to their parents.

The saying that 'success has many fathers, but failure has none' is true indeed. We get to see only the distressed women and their children, while the main cause of their problems remains hidden in the background. So the victims cannot be blamed altogether. Often it is circumstances that force them into such drudgery. These women and girls need to be psychologically strong and determined to face difficulties with courage and go on with their lives.

- 191. The opening sentence "Not all that glitters is gold" means
 - (A) All metals that shine must necessarily be as good as gold
 - (B) One must not be deceived by appearances
 - (C) Only gold has that unmistakable shine
 - (D) Glitter is the true quality of truth
- 192. Wearing saffron clothes does not make one a sanyasi, is another way of saying
 - (A) Saffron must only be worn by true ascetics
 - (B) Saffron is not the favourite colour of the sanyasis
 - (C) Saffron must be changed to some other colour
 - (D) Anybody who wears saffron is a sanyasi
